**Hook: / E / F#m / C#m / BA /  
/ E / F#m / C#m / BA / F#m / A /**

                                  C#m                  A  
Like the northern lights, and like fireflies,  
E  
On a summer's night.

                                  C#m                  A                  E  
Like the morning sun, chasing shadows on the lawn.

                                  C#m                  A  
I'm like a child, running barefoot,  
E  
Looking for shapes in the clouds.

                                  C#m                  A  
And You are the artist, You are the dancer,  
E  
You are the dreamer!

**E                                  B**  
**I'll be a child and I'll dance in Your arms**  
**C#m                                  A**  
**And I'll spin like the world where You made me.**

**E                                  B**  
**I'll be amazed with each breath that I take**  
**C#m                                  A**  
**Singing, "Jesus, am I only dreaming?"**

**E**  
**Am I only dreaming?"**

C#m                  A  
Like the quiet hush of the snowfall  
E  
Whispering over the trees  
                  C#m                  A  
Like the frosted glow of the moonlight  
E  
While all of the world is asleep  
                  C#m                  A  
Lost in a land of great wonder  
E  
Learning to laugh like a child once again  
C#m          A                          E  
Life is a song and you are the singer.

**E  B**  
**I'll be a child and I'll dance in Your arms**  
                  **C#m  A**  
**And I'll spin like the world where You made me.**
